Saudi Arabia.

Dec.2022 Selected as a AI educational Robot for Kindergarten by Seoul Early  
Childhood Education & Promotion Center.

# BLOCKBOT

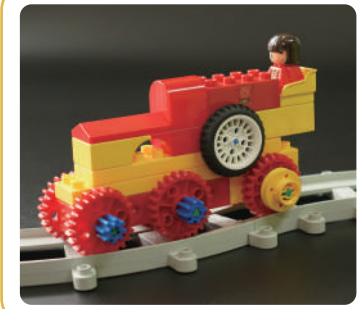

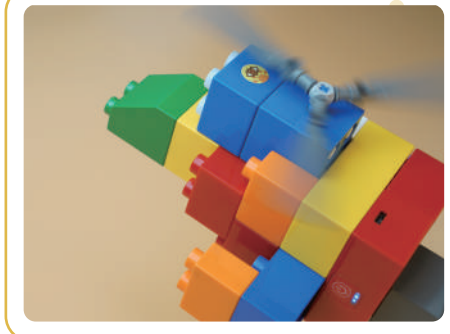

Breathing Life into LEGO!

# • Introducing BLOCKBOT •

## Smart Block

## Creative Activity

'BLOCKBOT' is 100% identical to LEGO(Duplo size) blocks that has robotics modules embedded inside.

BLOCKBOT is designed to let users use their creativity to decide what to build, and at the same time, it provides coding environment along with mobility.

# Why Blockbot?

## Compatibility

Blockbot is 100% compatible with LEGO blocks (Both Duplo & Classic), so Blockbots can be used with LEGO blocks you have at home.

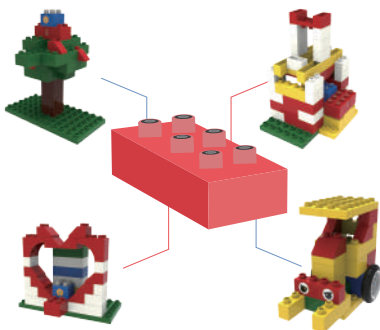

## Creativity

Build your OWN robots with your own characteristics.  
Blockbots will provide functionality,  
but you get to decide how you want your robot to be.

## Price Competitiveness

Compare our price to our competitions.  
You will find Blockbots to be very affordable.  
It becomes very price competitive when you expand and extend.

## Abundant Contents

We provide and share all our contents with everyone,  
and you can simply add mobility to your own LEGO creations.

# • Components of Blockbots •

## Coding Block

Coding Block

Simple coding is possible when this block is assembled without any computing device.

## Light Sensor

It senses amount of light.

## Battery Block

This is a source of electrical power to all Blockbots. This is rechargeable thru micro 5 pin cable.

## LED Block

It is capable of shedding lights into this world.

## Bluetooth Block

It is in charge of communication using Bluetooth technology.

## IR (InfraRed) Sensor

Using Infra Red rays, it can measure objects in front of them.

## Motor Block

It provides mobility to your creations!!

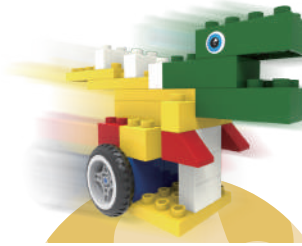

## Sound Sensor

It senses sound in our environment.

# Product Line-Up

1 set of Smartblocks

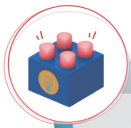

Dino

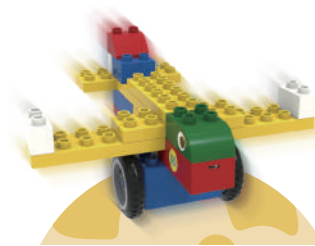

Enough blocks to build 9 different Dinosaurs and their Assembly Guides in PDF file format.

**Projected price: \$ 185.00**

LED block is added!

1 set of Smartblocks

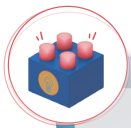

Mobility

Enough blocks to build 7 different Mobility units and their Assembly Guides in PDF file format.

**Projected price: \$ 199.00**

LED block is added!

1 set of Smartblocks

Animal Kingdom

Enough blocks to build 9 different animals and their Assembly Guides in PDF file format.

**Projected price: \$ 199.00**

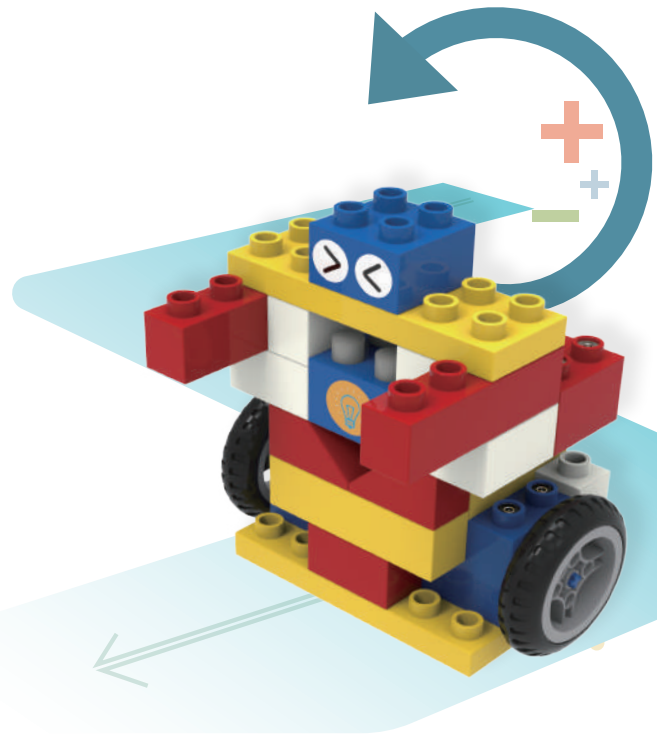

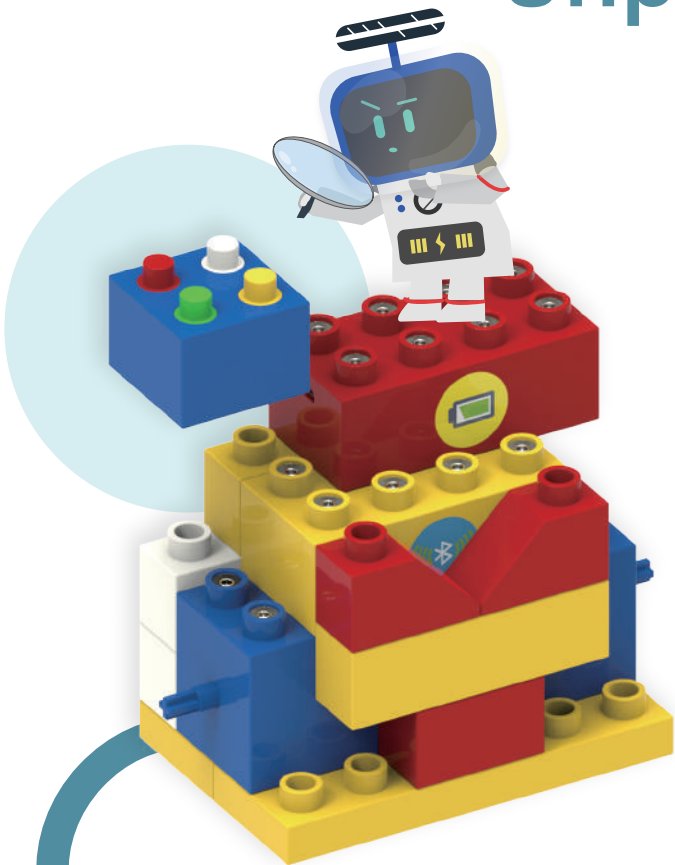

# Fun Fun!

Coding Block

## Unplugged?

Coding Block, which has 4 buttons for simple coding without any computing devices.

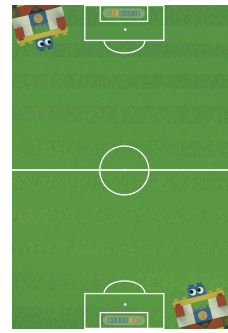

It enables simple coding without any computing devices.

Add a coding block to all blockbot products and try coding anytime anywhere.

# Robot Football (Soccer)

Football (Soccer)	<b>\$ 499.00</b>
+Unplugged	<b>\$ 574.00</b>

'+Unplugged' refers to a product with a coding block added.

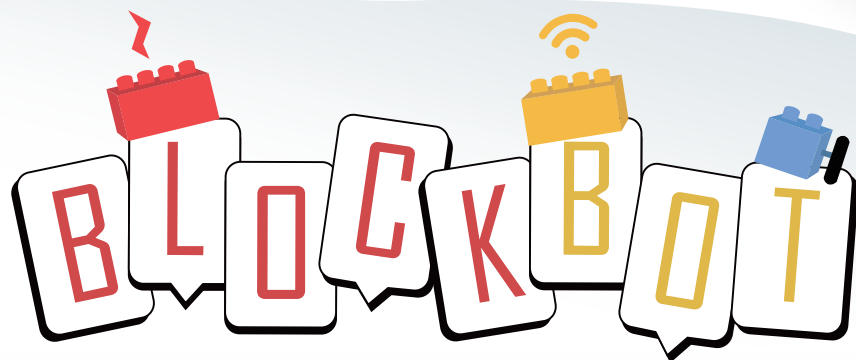

2 sets of smart Blocks
